

## NEWS AND VIEWS . . .

### And What Have You

By BOB CRAIG

During the past week or so a great many people have expressed an interest in the operation of our city government and Saturday we will find out just how much concern they really have — Saturday is election day.

If the past two or three years is any indication it is likely that we will see that there are a lot more people who like to talk about our city and school business than there are people who are willing to take time to go vote.

Checking back over the past three years, the biggest turnout of voters was 275 who voted in a contested school trustee election. Last year there were contests in both the city and school elections and only 250 people took the time to vote. With 3400 people in Hamlin surely there are more than this that should be concerned about our school and city affairs.

A check with Louis Johnson, Jones County Tax Assessor-Collector, reveals that there are 235 qualified voters in the Hamlin East Box and 923 in the Hamlin West Box. While not all of these live within the city limits of Hamlin, most of them do. And most of these do live within the school district as well as some others who live outside Jones County who can vote in the school election.

I don't know how many qualified voters we have that can vote in the city election but I do know that it is a whole lot closer to 1,000 than it is to 250.

While it is a shame that no more than this register to vote, it is an even bigger shame that so few of these turn up at the polls. You just wonder sometimes why they go to the trouble to register.

And this is not just a problem here. Last week in the school bond election in Abilene only about 8,000 voted in a city of 90,000. And this was a record turnout.

Naturally, our first concern is that you vote, but at the same time I hope that you will exercise your best judgment in making your decision. I realize that for some the current problem with the police department is of major concern, but I would remind you that you are electing men to serve you for the next two years that will be faced with many other decisions too.

Among these problems will be where to get the money to do all of the things that the city must do to meet both state and federal requirements.

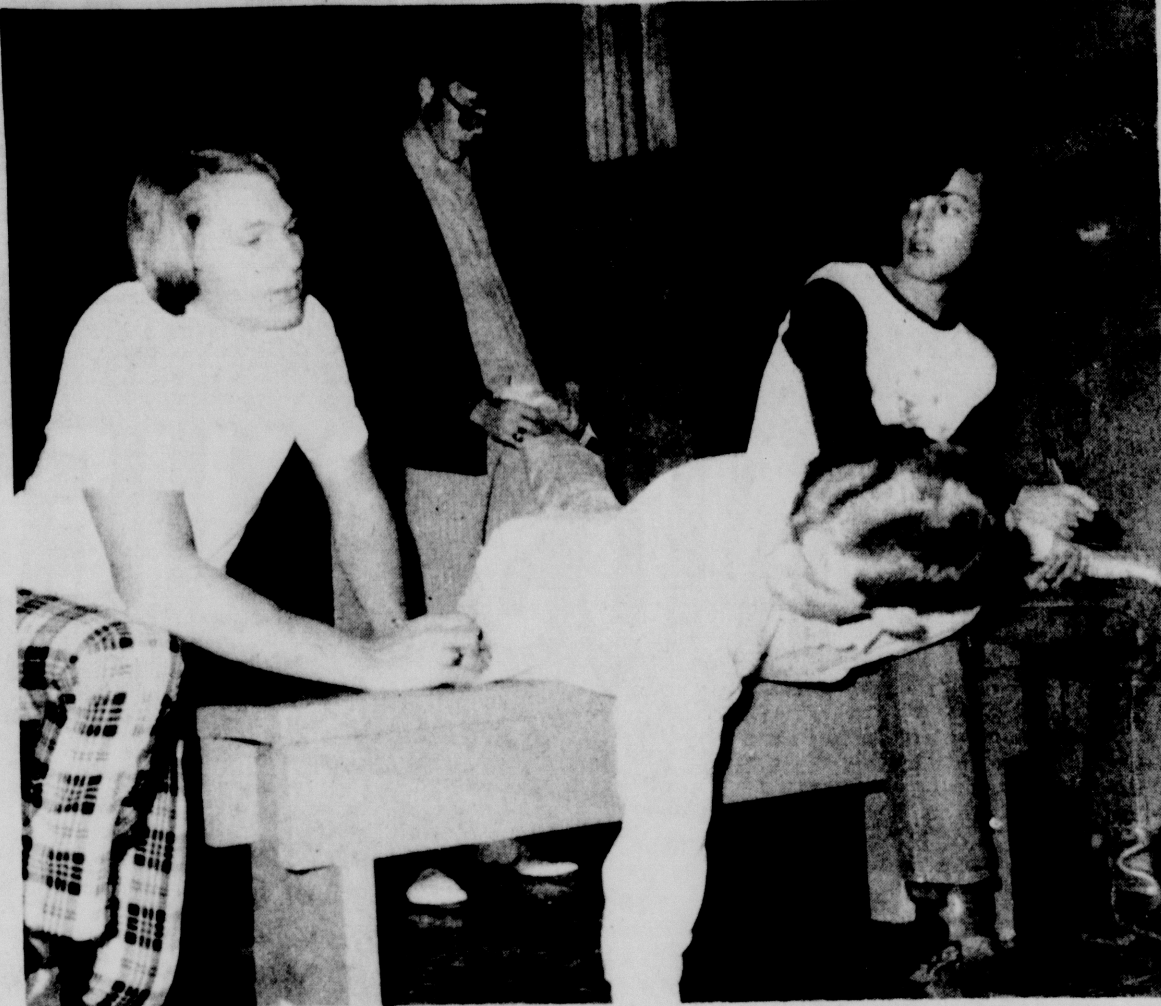

These men you elect Saturday to represent you on the City Council will be making decisions over the next two years that will determine how your tax monies will be spent. This past year the City Budget was \$318,000 and it is likely to get even higher in the next two years.

And just because the men running for the school board are unopposed is no reason not to go vote. These men who spend many thankless hours solving your problems deserve at least a few minutes of your time to vote.

Like others in town I have heard rumors of a write-in campaign in the city election. If there is to be one I hope that the people involved have the courage to bring it out in the open and not make a whisper campaign out of it. The people of Hamlin deserve better than this.

Let me urge you again — if you took the time to register, please take the time to vote.

Sometimes I am amazed at the thinking in Austin. I note that the tuition of the students in some of our state schools is to be pledged to a building program for higher education. They make this sound like new found money. I wonder where this money has been going to in the past whatever this purpose was, what are they going to do for money in the future?

Those who fail to receive a card may call the primary building, 576-3881, for information.

The teachers ask that each child be at school by 8:30 on the day he is to visit and that parents take their children to the Reading Center building rather than the primary building. The Reading Center building is the building between the primary and elementary buildings and faces N. W. Ave. E.

The day's activities will be under the supervision of the Reading Center teachers, Mrs. Tim Jones and Mrs. Richard Young Jr.

The children will need to bring 40c to eat lunch in the school cafeteria. Also it will be necessary for the

## 'Celebration for Christ' Set In Abilene Wednesday

The Abilene Civic Center will be the scene for the first annual "Celebration For Christ" on Wednesday night, April 7, at 8:00. The star studded program is the culmination of a dream of a group of christian young people representing the three fine institutions of higher learning in Abilene. College students from McMurry, Abilene Christian College and Hardin-Simmons University are co-sponsors along with the Abilene Adult Chapter of the Fellowship of Christian Athletes (FCA).

Dr. James Flammig, pastor of Abilene's First Baptist Church, will be the keynote speaker for the evening.

Dr. Flammig once performed on the gridiron for the H. S. U. Cowboys.

Headlining the program will be the all-pro wide receiver Don Maynard from the New York Jets. Don matriculated through Colorado City high school and Texas Western College at El Paso (UTSP) before joining the professional football ranks. The slender Texan has caught passes for more yards than any other player in the history of professional football, as well as setting many other standards for others to follow. Perhaps the most impressive thing about Don Maynard is the fact that he is an outstanding christian. God has given him a great talent and Don is in the process of giving it back to Him, with increased value.

The public is invited to attend, both the young and the old.

## SHORT SNORTS

Senate moved fast to ratify the federal constitutional amendment to lower the voting age to 18; House approval also was likely.

Bill to create "permanent" voter registration system passed the Senate.

Senate also approved a measure designed to give students more flexibility in repaying student loans and to let the loans be insured under a federal program.

Texas cities levying local sales taxes collected \$39.6 million for last quarter of 1970.

AUSTIN, — Senate hearings on a multi-hundred-million-dollar tax bill are underway, and where they stop nobody knows.

Lt. Gov. Ben Barnes indicated they may continue for a week or two.

Key argument as hearings opened centered on whether the state should have a corporation income tax.

Texas economy will be slowed down by the corporate income levy, argued Tom Sealy of Midland, representing the new Texas Association of Taxpayers, at hearings before the State Affairs Committee.

Corporate profits tax, countered AFL-CIO President H. S. (Hank) Brown, will meet revenue needs and "create balance between corporate and consumer taxes."

Sealy backed the House-passed increase of sales tax from 3.25 per cent to four per cent, but said his group needs more time to formulate a complete tax plan.

Brown favored a six per cent corporation profits tax, which he said would raise \$600 million over the next two years.

Business, said Sealy, already pays 34 per cent of the state sales tax.

Consumers and non-business interests, said Brown, pay 62 per cent of all state taxes, while business pays 31.7 per cent in direct levies, including its share of the sales tax.

Minimum tax bill, said Sen. A. M. Aikin Jr. of Paris, based on the Senate's Finance Committee budget proposals, would be \$643 million for the coming biennium.

Lieutenant Governor Barnes said he hopes to have the tax

bill on the Senate floor for debate by April 12.

House of Representatives, said Appropriations Committee Chairman Rep. W. S. Heatly of Paducah, will have the budget bill ready for debate by Easter.

WELFARE CUTS ORDERED — True to advance warnings, Welfare Board ordered a cut in Aid to Families with Dependent Children effective May 1.

Average grant of \$118 a month will be reduced to approximately \$80, about one-third of current payments. Cutback also will eliminate 4,500 families from AFDC rolls.

Gov. Preston Smith expressed regrets, but said he has no legal authority to alter the cut, since the state has reached the \$80 million a year ceiling for welfare outlays.

Smith gave his endorsement to the constitutional amendment (Amendment 3) to be voted on May 18 which will raise the ceiling.

COURTS SPEAK — State Supreme Court upheld an injunction against a Coleman businessman who sold liquor and food in the same building. Texas attorney general's office is studying the case to determine how far-reaching it is.

High Court rejected a Bryan discount store's appeal to stop district judge from ordering it closed for failing to observe Sunday blue laws.

Court of Criminal Appeals held in a San Patricio County case that inmates serving life sentences are eligible for parole after 15 years if sentenced before the 1967 change of law.

City Employees Receive Citation For Proficiency

AUSTIN — An official State Health Department citation for work proficiency has been awarded to Willie E. Alls, Robert A. Cary, Herbert Crouch, Billy T. Deel and Roy Lee Embrey, all of Hamlin.

Signed by the State Health Commissioner and authorities of the Texas Water Utilities Association, the certificate of competency is awarded only to those utility plant operators who have successfully demonstrated their skill and knowledge in modern principles of plant management.

To qualify for certification, a plant operator must have accumulated a prescribed amount of actual work experience. He must also have attended both regional and statewide short schools at which the techniques of water treatment and waste disposal are taught, and must have passed an examination given by State Health Department sanitary engineers.

State law requires that at least one operator per shift be certified for competency by health department engineers, but many operators seek certification on their own time and at their own expense to increase their efficiency as key public servants to their community and state.

## FROM THE FILES . . .

FORTY— FIVE YEARS AGO  
(March 26, 1926)

Did you hear that? We said a million-dollar rain, and that is what we call it.

Last Saturday night about one inch of rain fell, then a few days of pretty warm sunshine and Wednesday night for two hours before nine o'clock it poured again. A rest of an hour of so and still more fell. So now the great flat broke fields of this country are reeking in moisture. So you see we really have had a "million dollar" rain, yes, sir-ee!

When this good old country has a rain in March like we got this week, she's sitting on a barrel of money. Probably never before has this section had its farms in such good shape. Don't get excited, for we will need many more such rains before next September. It looks like we will get them. Sure does.

If one wishes to see some real progress, take a peep at South Hamlin. Right now there are two very substantial residences being built. They are J. R. Bull's and S. R. Camfield's. From indications every feature of these homes are modern. The first street to the east of Central Avenue is fast becoming one of the best built streets in Hamlin. There are many good features about this locality that make it a good part of town in which to live. If the progressive citizens of that side of town will begin to light up their streets, it would induce the same on our longer residence streets, in the rest of Hamlin.

TWENTY YEARS AGO  
(March 30, 1951)

Last Thursday night provided a festive air in Hamlin when the Hamlin Drive-In Theatre had its surprise formal opening.

Capacity crowds greeted the first film projection on the new outdoor entertainment center and very few difficulties arose from the initial public demonstration of the modern equipment.

Various estimates of amount invested in the new Hamlin enterprise have been made and it was learned

from Mrs. B. S. Ferguson, manager, that a final computation of the cost of the structure would approach \$75,000.00.

The projection screen of the new drive in theatre is said to be the largest in this section of West Texas and the Century projectors are of the latest type manufactured. A So-called "moon-tower" is to be built at the rear of the parking area which will permit a diffused illumination to aid drivers in parking near the speaker stations. The character of this light will not interfere with images cast on the screen.

The early opening of the theatre was in response to Hamlin pleas for this type of movie entertainment and was made in advance of final work on the massive layout.

Work continues on the finishing of the plant as the show is being operated and completion of this work will bring Hamlin one of the most beautiful theatres in all of Texas.

TEN YEARS AGO  
(March 30, 1961)

The Hamlin annual Junior Rodeo sponsored by the Hamlin Riding Club, will be held this year in June rather than in August as in the past, newly elected president, Dr. W. A. Hawkins announced this week. The rodeo dates this year will be June 15-16-17.

He also announced that the rodeo will be approved by the American Junior Rodeo Association for the first time and this should bring many new contestants to the Hamlin rodeo. Points won here will count in the national Junior Rodeo standings.

The Easter Lily drive originally set for last Saturday was postponed until Saturday, April 1, because of unfavorable weather conditions. The Easter Seal Campaign is sponsored in Hamlin each year by the Beta Theta and Xi Gamma Pi chapters of Beta Sigma Sorority is being directed by Mrs. Bill Feagan, chairman.

Workers in the Hamlin drive include members of the two sorority chapters and other volunteers.

## Neinda Philosopher Takes A Long and Confused Look At SST Airplane Argument

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One reacts in his own way to the controversy over the Supersonic Transport this week.

Dear editor:

Although I'm not clear in my mind what the cancelled SST jet airplane was for — oh, I know it'd go 1800 miles an hour and would get people from New York to Paris 4 hours quicker than they can go now but that wouldn't do any good, most of 'em would come back — still I have been following the debate in Congress as close as I could, what with there not being many interesting sports events on television now anyway and political scandals in the papers are so frequent they're becoming monotonous.

I'll admit I've never been able to understand the financial part of it, like why the government should pay a private company to make an airplane to sell to private airlines to haul private passengers in, and even less have I been able to understand why a private company would undertake the job on the impractical hope that Congress wouldn't change its mind half-way through its financing of the project. You'd think people running a big company like that would have more knowledge of Congressmen.

They could have asked any farmer, whose government checks this year aren't going to be nearly as much as they've been in the past. I learned long ago a man's got to learn to live with Congress and dig in when he has to.

Another thing about the SST is that it's an airplane three stories high and as long as a football field, and I got to thinking, if it didn't

fly, why couldn't they use it for an enclosed stadium? But then I got to checking up and while it's true it is 100 yards long, the same distance as a football field, some designer goofed and didn't leave any room for the end-zones. Somebody'd get killed

NEWS FROM . . .

## Sylvester

By MRS. R. M. BABB

We had a couple of beautiful days but winter is back and it is kinda cold this morning.

Hope all had a good weekend. We did. Did you attend Church somewhere on Sunday?

Mrs. Buster Lambert has spent several days in Hamlin hospital, hope she is home by the time this is read.

Mrs. Alma Scott also spent several days in Hamlin hospital.

Buster Turner of Brownfield spent part of last week with his parents, Mr. and Mrs. Fred Turner.

We visited in the Red Howard home in Haskell on Sunday afternoon and found Red had been dismissed from the hospital but will have to be very careful for some time as he has just had a heart attack.

Mr. and Mrs. Faye Dozier drove to Denver City to attend a Golden Wedding Anniversary of some friends.

The Wesley Maberry family of Irving drove out for the weekend with their parents, Mr. and Mrs. Richard Kelly

crashing over for a touch-down and going through the nose or tail of the thing.

There are a lot of things about government I don't understand.

Yours faithfully,  
J. A.

and Mr. and Mrs. J. P. Ma-berry.

Capt. and Mrs. Jim Lanning and children drove up from A & M for the weekend in the homes of Mr. and Mrs. Edwards of Rotan and Mr. and Mrs. Jim Lanning of Sylvester.

The Alton Mauldin children of Midland spent the weekend with their grandparents, Mr. and Mrs. Guy Mauldin.

Mrs. A. J. Ford and Mrs. Tindall visited the Oran B. Mauldin family in Abilene Sunday afternoon.

Mrs. Ezell Whitten spent Sunday and Sunday night with her sister, May Hurst. Exell returned to Hamlin Monday.

Mrs. J. M. Montgomery had to remain in Hamlin hospital last Saturday when she went over for a check.

Have you seen the Charlie Brown, Peanuts and Snoopy cartoon books? There are several to choose from at the HAMLIN HERALD.

## FLIGHT . . . of Faith

The faith of a boy that a slender string shall hold high his kite — that when he extends a little more string his kite will go a little higher — shows that this flight is a flight of faith.

As the boy has faith in the string so must we have faith in our Lord, and the more faith we extend, the higher and more abundant our lives will be. It is written in Romans 1:17, "The just shall live by faith." Attend Church this Sunday and receive inspiration from those who share your faith, that you may, as the Apostle Paul said, "be comforted together by the mutual faith of you both."

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Coleman Adv. Ser.

## NEWS AND VIEWS . . .

### And What Have You

By BOB CRAIG

During the past week or so a great many people have expressed an interest in the operation of our city government and Saturday we will find out just how much concern they really have — Saturday is election day.

If the past two or three years is any indication it is likely that we will see that there are a lot more people who like to talk about our city and school business than there are people who are willing to take time to go vote.

Checking back over the past three years, the biggest turnout of voters was 275 who voted in a contested school trustee election. Last year there were contests in both the city and school elections and only 250 people took the time to vote. With 3400 people in Hamlin surely there are more than this that should be concerned about our school and city affairs.

A check with Louis Johnson, Jones County Tax Assessor-Collector, reveals that there are 235 qualified voters in the Hamlin East Box and 923 in the Hamlin West Box. While not all of these live within the city limits of Hamlin, most of them do. And most of these do live within the school district as well as some others who live outside Jones County who can vote in the school election.

I don't know how many qualified voters we have that can vote in the city election but I do know that it is a whole lot closer to 1,000 than it is to 250.

While it is a shame that no more than this register to vote, it is an even bigger shame that so few of these turn up at the polls. You just wonder sometimes why they go to the trouble to register.

And this is not just a problem here. Last week in the school bond election in Abilene only about 8,000 voted in a city of 90,000. And this was a record turnout.

Naturally, our first concern is that you vote, but at the same time I hope that you will exercise your best judgment in making your decision. I realize that for some the current problem with the police department is of major concern, but I would remind you that you are electing men to serve you for the next two years that will be faced with many other decisions too.

Among these problems will be where to get the money to do all of the things that the city must do to meet both state and federal requirements.

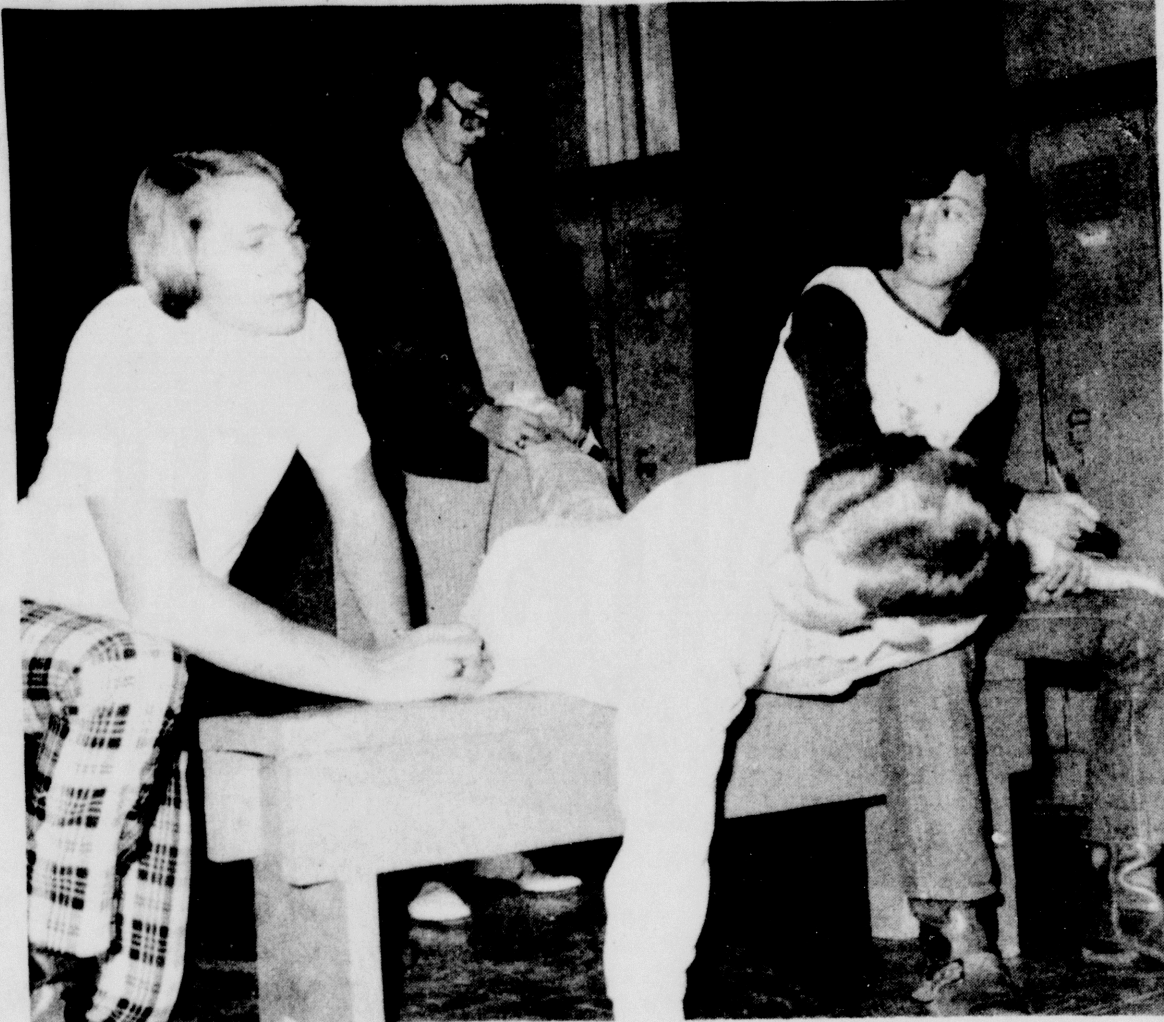

These men you elect Saturday to represent you on the City Council will be making decisions over the next two years that will determine how your tax monies will be spent. This past year the City Budget was \$318,000 and it is likely to get even higher in the next two years.

And just because the men running for the school board are unopposed is no reason not to go vote. These men who spend many thankless hours solving your problems deserve at least a few minutes of your time to vote.

Like others in town I have heard rumors of a write-in campaign in the city election. If there is to be one I hope that the people involved have the courage to bring it out in the open and not make a whisper campaign out of it. The people of Hamlin deserve better than this.

Let me urge you again — if you took the time to register, please take the time to vote.

Sometimes I am amazed at the thinking in Austin. I note that the tuition of the students in some of our state schools is to be pledged to a building program for higher education. They make this sound like new found money. I wonder where this money has been going to in the past whatever this purpose was, what are they going to do for money in the future?

## 'Celebration for Christ' Set In Abilene Wednesday

The Abilene Civic Center will be the scene for the first annual "Celebration For Christ" on Wednesday night, April 7, at 8:00. The star studded program is the culmination of a dream of a group of christian young people representing the three fine institutions of higher learning in Abilene. College students from McMurry, Abilene Christian College and Hardin-Simmons University are co-sponsors along with the Abilene Adult Chapter of the Fellowship of Christian Athletes (FCA).

Dr. James Flammig, pastor of Abilene's First Baptist Church, will be the keynote speaker.

note speaker for the evening. Dr. Flammig once performed on the gridiron for the H. S. U. Cowboys.

Headlining the program will be the all-pro wide receiver Don Maynard from the New York Jets. Don matriculated through Colorado City high school and Texas Western College at El Paso (UTSP) before joining the professional football ranks. The slender Texan has caught passes for more yards than any other player in the history of professional football, as well as setting many other standards for others to follow. Perhaps the most impressive thing about Don Maynard is the fact that he is an outstanding christian. God has given him a great talent and Don is in the process of giving it back to Him, with increased value.

The public is invited to attend, both the young and the old.

**City Employees Receive Citation For Proficiency**

AUSTIN — An official State Health Department citation for work proficiency has been awarded to Willie E. Allis, Robert A. Cary, Herbert Crouch, Billy T. Deel and Roy Lee Embrey, all of Hamlin.

Signed by the State Health Commissioner and authorities of the Texas Water Utilities Association, the certificate of competency is awarded only to those utility plant operators who have successfully demonstrated their skill and knowledge in modern principles of plant management.

To qualify for certification, a plant operator must have accumulated a prescribed amount of actual work experience. He must also have attended both regional and statewide short schools at which the techniques of water treatment and waste disposal are taught, and must have passed an examination given by State Health Department sanitary engineers.

State law requires that at least one operator per shift be certified for competency by health department engineers, but many operators seek certification on their own time and at their own expense to increase their efficiency as key public servants to their community and state.

The pageant is presented free by the families of J. H. Pierre and Phil Kendrick with the help of people from the surrounding area. As

many as 20,000 have been in attendance. The theater will accommodate up to 100,000.

The event is held in the Kendrick amphitheater on U. S. Highway 80, four miles west of Eastland as a pre-dawn service beginning at 3:30 a.m. on Easter Sunday. An offering is taken for

those who wish to contribute. Camping space is available for those who wish to bring campers.

Marcy F. Allen of Gorman visited in Hamlin last Monday and was asking about friends that he had known as a resident here in the early

1900's. He worked for Ezell Brothers Drug Store and was also employed for a time at the First State Bank before leaving here in 1918 when he joined the Army.

Weekend events should be reported to the Herald by noon Monday.

FROM THE FILES . . .

FORTY— FIVE YEARS AGO  
(March 26, 1926)

Did you hear that? We said a million dollar rain, and that is what we call it.

Last Saturday night about one inch of rain fell, then a few days of pretty warm sunshine and Wednesday night for two hours before nine o'clock it poured again. A rest of an hour of so and still more fell. So now the great flat broke fields of this country are reeking in moisture. So you see we really have had a "million dollar" rain, yes, sir-ee!

When this good old country has a rain in March like we got this week, she's sitting on a barrel of money. Probably never before has this section had its farms in such good shape. Don't get excited, for we will need many more such rains before next September. It looks like we will get them. Sure does.

If one wishes to see some real progress, take a peep at South Hamlin. Right now there are two very substantial residences being built. They are J. R. Bull's and S. R. Camfield's. From indications every feature of these homes are modern. The first street to the east of Central Avenue is fast becoming one of the best built streets in Hamlin. There are many good features about this locality that make it a good part of town in which to live. If the progressive citizens of that side of town will begin to light up their streets, it would induce the same on our longer residence streets, in the rest of Hamlin.

TWENTY YEARS AGO  
(March 30, 1951)

Last Thursday night provided a festive air in Hamlin when the Hamlin Drive-In Theatre had its surprise formal opening.

Capacity crowds greeted the first film projection on the new outdoor entertainment center and very few difficulties arose from the initial public demonstration of the modern equipment.

Various estimates of amount invested in the new Hamlin enterprise have been made and it was learned

from Mrs. B. S. Ferguson, manager, that a final computation of the cost of the structure would approach \$75,000.00.

The projection screen of the new drive in theatre is said to be the largest in this section of West Texas and the Century projectors are of the latest type manufactured. A So-called "moon-tower" is to be built at the rear of the parking area which will permit a diffused illumination to aid drivers in parking near the speaker stations. The character of this light will not interfere with images cast on the screen.

The early opening of the theatre was in response to Hamlin pleas for this type of movie entertainment and was made in advance of final work on the massive layout.

Work continues on the finishing of the plant as the show is being operated and completion of this work will bring Hamlin one of the most beautiful theatres in all of Texas.

TEN YEARS AGO  
(March 30, 1961)

The Hamlin annual Junior Rodeo sponsored by the Hamlin Riding Club, will be held this year in June rather than in August as in the past, newly elected president, Dr. W. A. Hawkins announced this week. The rodeo dates this year will be June 15-16-17.

He also announced that the rodeo will be approved by the American Junior Rodeo Association for the first time and this should bring many new contestants to the Hamlin rodeo. Points won here will count in the national Junior Rodeo standings.

The Easter Lily drive originally set for last Saturday was postponed until Saturday, April 1, because of unfavorable weather conditions. The Easter Seal Campaign is sponsored in Hamlin each year by the Beta Theta and Xi Gamma Pi chapters of Beta Sigma Sorority is being directed by Mrs. Bill Feagan, chairman.

Workers in the Hamlin drive include members of the two sorority chapters and other volunteers.

Neinda Philosopher Takes A Long and Confused Look At SST Airplane Argument

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One reacts in his own way to the controversy over the Supersonic Transport this week.

Dear editor:

Although I'm not clear in my mind what the cancelled SST jet airplane was for — oh, I know it'd go 1800 miles an hour and would get people from New York to Paris 4 hours quicker than they can go now but that wouldn't do any good, most of 'em would come back — still I have been following the debate in Congress as close as I could, what with there not being many interesting sports events on television now anyway and political scandals in the papers are so frequent they're becoming monotonous.

I'll admit I've never been able to understand the financial part of it, like why the government should pay a private company to make an airplane to sell to private airlines to haul private passengers in, and even less have I been able to understand why a private company would undertake the job on the impractical hope that Congress wouldn't change its mind half-way through its financing of the project. You'd think people running a big company like that would have more knowledge of Congressmen.

They could have asked any farmer, whose government checks this year aren't going to be nearly as much as they've been in the past. I learned long ago a man's got to learn to live with Congress and dig in when he has to.

Another thing about the SST is that it's an airplane three stories high and as long as a football field, and I got to thinking, if it didn't

fly, why couldn't they use it for an enclosed stadium? But then I got to checking up and while it's true it is 100 yards long, the same distance as a football field, some designer goofed and didn't leave any room for the end-zones. Somebody'd get killed

crashing over for a touchdown and going through the nose or tail of the thing.

There are a lot of things about government I don't understand.

Yours faithfully,  
J. A.

NEWS FROM . . .

By MRS R M BABB

We had a couple of beautiful days but winter is back and it is kinda cold this morning.

Hope all had a good weekend. We did. Did you attend Church somewhere on Sunday?

Mrs. Alma Scott also spent several days in Hamlin hospital.

Buster Turner of Brownfield spent part of last week with his parents, Mr. and Mrs. Fred Turner.

We visited in the Red Howard home in Haskell on Sunday afternoon and found Red had been dismissed from the hospital but will have to be very careful for some time as he has just had a heart attack.

Mr. and Mrs. Faye Dozier drove to Denver City to attend a Golden Wedding Anniversary of some friends.

The Wesley Maberry family of Irving drove out for the weekend with their parents, Mr. and Mrs. Richard Kelly

and Mr. and Mrs. J. P. Maberry.

Capt. and Mrs. Jim Lanning and children drove up from A & M for the weekend in the homes of Mr. and Mrs. Edwards of Rotan and Mr. and Mrs. Jim Lanning of Sylvester.

The Alton Mauldin children of Midland spent the weekend with their grandparents, Mr. and Mrs. Guy Mauldin.

Mrs. A. J. Ford and Mrs. Tindall visited the Oran B. Mauldin family in Abilene Sunday afternoon.

Mrs. Ezell Whitten spent Sunday and Sunday night with her sister, May Hurst. Exell returned to Hamlin Monday.

Mrs. J. M. Montgomery had to remain in Hamlin hospital last Saturday when she went over for a check.

Have you seen the Charlie Brown, Peanuts and Snoopy cartoon books? There are several to choose from at the HAMLIN HERALD.

FLIGHT . . . of Faith

The faith of a boy that a slender string shall hold high his kite — that when he extends a little more string his kite will go a little higher — shows that this flight is a flight of faith.

As the boy has faith in the string so must we have faith in our Lord, and the more faith we extend, the higher and more abundant our lives will be. It is written in Romans 1:17, "The just shall live by faith." Attend Church this Sunday and receive inspiration from those who share your faith, that you may, as the Apostle Paul said, "be comforted together by the mutual faith of you both."

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Coleman Adv. Ser.
